Heritage Grants

Heritage Grants are intended to encourage the preservation and study of local and regional cultural resources and to assist cultural agencies to develop stronger practices in maintaining and managing local heritage resources. Awards of up to \$3,500 may support oral history projects and basic research projects that will help authenticate your stories.

Better Museum Visits- MHC offers 2 programs

Our focus is on people rather than things.
[These programs are] about better "visits" rather than better "exhibits" or better "collections management."

1). "21st by 21"

Let's bring our 19th-century museum practices into the 21st century in time for our statehood bicentennial in 2021. To help accomplish that goal, we have focused much of our grant-making on local projects that take steps out of the old and into the new.

2). Workshops and Charettes

Charettes are workshops that help humanities organizations upgrade their thinking and practices to dramatically improve visitor satisfaction and increase public participation.
